

THE SHARON ERUV REPORT

Directions:

Please report your section by 10:00AM and type "Good" or "Problem" in the status column. If there is a problem, please answer the questions in the "Problem Description" column to the best of your ability.

If your section has multiple checkers, please let us know it is your turn on Thursday, by highlighting your name, so that we know who to follow up with.

PLEASE, PLEASE, PLEASE MAINTAIN LECHI NUMBERS ON YOUR ROUTES, AND INCLUDE THEM IN YOUR REPORT!!!!

If there is a problem with a lechi try to describe what kind it is- U-guard, wood, composite, etc.

If a problem is 11' high or higher, please note that so we can bring a longer ladder.

Pictures are VERY helpful for tricky problems.

If you check a wooded section, please remember to take a pole pruner into the woods with you when you check GOOD

Thank you so much for your hard work! AI - 781-726-1878

(Google Docs work best in the Google Chrome browser, which can be downloaded [HERE](#))

Date: Parshat Re'eh
